## PROFESSIONAL PROFILE

Recent graduate with a Java Full Stack Developer certification. Eager to apply foundational skills in sales, marketing, and leadership to excel in the development field. Highly motivated, with a strong work ethic and a passion for learning. Ready to contribute to innovative projects and drive results in a dynamic team environment.

## PROJECT

### Hospital Management system

**October 2023**

A Hospital Management System (HMS) is a web-based application using HTML, CSS, JavaScript, Java, JSP, and MySQL. It handles patient registration, appointment scheduling, medical records, billing, inventory, and reporting for efficient hospital management.

### Library Management System

**January 2024**

Java console-based Library Management System (LMS) facilitates CRUD operations for books, authors, and library records. It enables librarians to manage inventory efficiently through Create, Read, Update, and Delete functions for book and author data.

### Stellar website

**November 2023**

A stellar website crafted with HTML and CSS features responsive design, ensuring optimal viewing experience across devices. It boasts a user-friendly interface (UI) with intuitive navigation, captivating visuals, and cohesive style, offering visitors an engaging and memorable browsing experience.
